## **HCPA Awards 2023 Murray Glauberman Memorial Scholarship to Michael Urevich**

---

Washington, D.C. — The Household & Commercial Products Association (HCPA) has awarded the 2023 Murray Glauberman Memorial Scholarship to Michael Urevich. Michael is a 2023 graduate of the Valley Forge Military Academy and will be attending Villanova University in the fall to study Operations Management.

The Glauberman Memorial Scholarship is awarded to a child or grandchild of a full-time employee of an HCPA member company. Named for the late Murray Glauberman, HCPA's 1986 Chair of the Board, the scholarship recognizes achievement in the classroom, leadership skills, and a commitment to community service. Since its inception in 1988, HCPA and Malco Products have awarded a total of \$272,000 to 34 deserving recipients to pursue their collegiate studies.

“Michael is the perfect example of a Glauberman Memorial Scholarship recipient for his hard work, leadership, and selfless commitment to service,” said Steve Caldeira, President & CEO, HCPA. In addition to earning the number one rank in his class, Michael is the President of the National Honor Society and tutors more than 100 students through his role as an English Teaching Assistant. Michael's accomplishments extend beyond the walls of school. He regularly volunteers to support veterans and active duty military through fundraisers and community service. HCPA is proud to award Michael the Glauberman Memorial Scholarship and wish him all the best at Villanova and beyond.”

### **About HCPA**

The Household & Commercial Products Association (HCPA) is the premier trade association representing companies that manufacture and sell \$180 billion annually of trusted and familiar products used for cleaning, protecting, maintaining, and disinfecting homes and commercial environments. HCPA member companies employ 200,000 people in the U.S. whose work helps consumers and workers to create cleaner, healthier, and more productive lives.
