HCPA Welcomes Meredith Mangas as Vice President of Meetings & Conferences

Washington, D.C. – The Household & Commercial Products Association (HCPA) is pleased to announce that Meredith Mangas will be joining the organization on October 11, 2022, as Vice President of Meetings & Conferences. Meredith comes to HCPA from the National Defense Industrial Association, where she managed a portfolio of more than 15 events per year, ranging in size from 200 to 15,000 attendees.

As the Vice President of Meetings & Conferences, Meredith will be responsible for the planning, budget, and execution of HCPA’s events, including workshops and webinars, as well as the Mid-Year and Annual Meetings.

“Meredith has the right experience and skill set to lead HCPA’s events, which are important to delivering important information to our members and generating revenue for the Association,” said Steve Caldeira, President & CEO, HCPA. “I’m confident that Meredith will be a great addition to the HCPA senior management team, and I look forward to the fresh perspective that she will bring to an area that has changed so drastically due to COVID.”

“The household and commercial products industry is so important for keeping people safe and healthy, and I’m very excited to collaborate with the staff and members to develop and execute programs that are so valuable,” said Mangas.

Earlier in her career, Meredith was a manager at the Million Dollar Round Table and the Association of the United States Army. She holds a Bachelor of Arts in Sociology from the University of Kentucky.
